- Anonymous age estimation
- All-in-one device, no integration required
- Local processing with instant results
- No data stored, GDPR accredited by Age Check Certification Scheme (ACCS)

No internet required

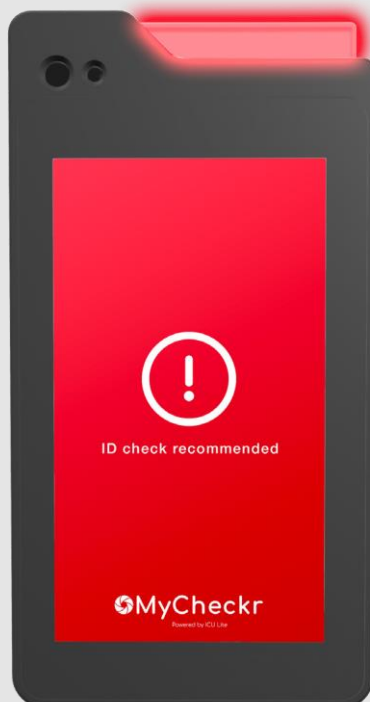

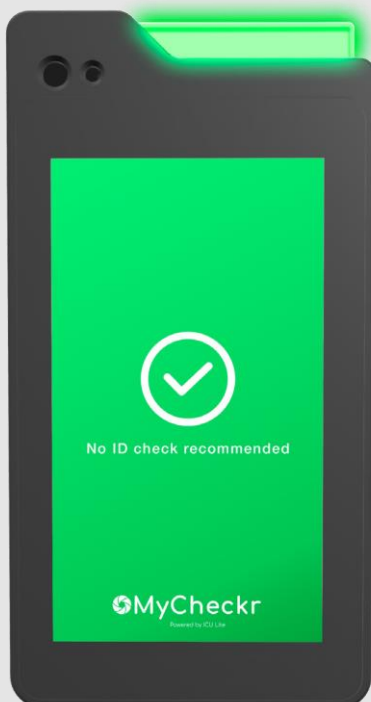

No recurring fees

World leading accuracy

How it works...

LED indicator clearly shows the server if a manual ID check is recommended

The person in front of the camera is 25 or over – not need to show ID to staff.

The person in front of the camera is under 25 and must show the ID to the sales staff.

Conforms to **CHALLENGE 25**

Did you know

The Association of Convenience Stores Crime Report 2022 found ,‘enforcing an age restricted sales policy’ is one of the top triggers for violence against staff.

Avoid prosecution

PerfectChecker can help avoid fines and secure licences in accordance with the UK Licensing Act 2003 objectives; protecting children from harm; preventing crime and Disorder.

Reduce potential abuse

PerfectChecker is a tool for servers to make informed decisions during the age check process, helping reduce potential abuse when challenging customers for ID.

Prevent underage sales

PerfectChecker can act as a deterrent to stop underage customers even attempting to purchase age registered goods.
